

SERVICE OFFER

Development awareness and education program

2025

Our vision : We aspire to a world where every child has access to the same opportunities and resources to build his future.

QUI SOMMES NOUS?

Since 2002, PADEM has been helping vulnerable children and their families in developing countries. PADEM works to ensure that all children benefit from the same rights and opportunities.

OUR ACTION PRINCIPLES

- PROMOTING LOCAL PARTNERSHIPS
- PROFESSIONALISM
- FLEXIBILITY

Promote an access to equal

Promote an access to equal Resources

PADEM focuses on access to environmental resources. To educate on this theme, we focus on access to certain resources in different parts of the world (water, nutrition, etc.) and zero waste.

Types of activities offered

Awareness-raising workshops: For companies or schools, we offer fun, age-appropriate awareness-raising workshops. These workshops, which can last from 1h30 to 3 hours, aim to understand the differences in access to resources around the world, the importance of limiting our consumption, and provide the keys to taking action and getting involved.

Photographic exhibitions: As part of its international projects, the NGO PADEM has put together a collection of 20 photos illustrating the difficulties and impacts of access to water around the world. These photos are printed on large-format explanatory panels, and can be exhibited in establishments for up to 1 month. On request, an staff intervention or a digital activity can be added to the exhibition.

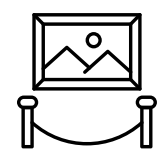

Promote an access to equal Opportunities

This theme mainly concerns access to children's rights, as set out in the CRC, and non-discrimination. Through a variety of fun and interactive media, we strive to raise awareness, inform and educate people about themes that are sometimes difficult to access. Through these actions, PADEM campaigns for a fairer world, and for education in tolerance and respect.

Types of activities offered

Awareness-raising workshops: For companies or schools, we offer fun, age-appropriate awareness-raising workshops. These workshops, which can last from 1h30 to 3 hours, aim to understand the differences in access to children's rights around the world, promote non-discrimination, and provide the keys to taking action and committing to a fairer world.

Photographic exhibitions: As part of its international projects, the NGO PADEM has put together a collection of 20 photos illustrating the rights cited in the International Convention on the Rights of the Child. These photos are printed on large-format explanatory panels, and can be exhibited in establishments for up to 1 month. On request, a staff intervention or a digital activity can be added to the exhibition.

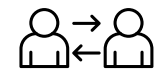

Proposer une expertise

Métier

It's important for PADEM to be able to capitalize on and share its experiences with different fields, such as professionals, the general public and even young people. We propose exchanges, experience-sharing and other types of activities to enable the Luxembourg public and our partners in the field to reinforce each other's efforts.

Types of activities offered

Cross-industry exchanges: Whether with PADEM staff, or with our partners abroad, we regularly organize cross-industry exchanges on the various themes we cover. These exchanges enable us to strengthen our skills and learn from each other's best practices. These exchanges are organized on request and according to the expertise available

Media appearances: PADEM regularly appears in the media to share its day-to-day work and share its experience on a variety of topics.

Media appearances

Workshops in schools

Awareness-raising booths

Workshops in companies

Photo exhibitions

Cross-industry exchanges
